OPDD DOCUMENT CONTROL PROCEDURE

(RADL ITEM 2-2)

1.0 SCOPE

The OPDD will be issued and updated as necessary during both Phase I and Phase II of the Pilot Plant Program. These OPDD Document Control Procedures are intended to apply to both phases of the program, and will be implemented in the same manner from the initial issue through final updates of all sections and appendices of the OPDD.

2.0 PROCEDURE

2.1 DISTRIBUTION

The first 20 copies of the OPDD, including the first two changes, have already been distributed to the recipients shown on the table, OPDD Distribution List. Additional copies of this version of the OPDD have been prepared by the SFDI for distribution to people requiring them. The distribution list will be maintained in current form by the SFDI, and OPDD updates will be issued to all people who are on the distribution list as of the date of issue of the update. People added to the OPDD distribution list at later phases in the program will be sent the latest version of the OPDD that is available at that time.

2.2 FORMAT

Each issue and update of the OPDD will contain an OPDD Change Notice Form, a sample of which is attached. The Change Notice Number, which is numbered consecutively beginning with 1, is shown on the form, along with the date of change, the OPDD number, and the affected pages. An approval block for STMPO to sign is also included. The Change Notice Forms will be inserted into the front of the OPDD copies and will serve as a historical record that can be used to check the currency of an individual document.

The OPDD Change Notice Forms will be accompanied by change pages, sections, or appendices, which will be issued on the basis of need, rather than at any regular interval. Individual change pages, as well as the cover pages of sections and appendices, will carry the OPDD document number as well as the revision date for identification. Individual change pages will also have a vertical bar in the right-hand margin, along with change number, to indicate where the revision has been made.

2.3 APPROVAL

The SFDI will submit all proposed changes to existing OPDD material, as well as material which has been generated by the SFDI for initial issue, to STMPO for approval. Each package will be submitted to STMPO with an OPDD Change Notice, completed except for STMPO approval and date of change. Upon receipt of the signed form from STMPO, the SFDI will date the form, run the required number of copies, and mail the complete change package to each of the people on the OPDD distribution list.

For changes originated within STMPO, e.g., modifications to OPDD Section 1, the SFDI will send only the change notice form to STMPO for signature while copies of the package are being run at Huntington Beach for distribution. The SFDI will then combine the signed copy with the copies of the modifications for mailing to the people on the OPDD distribution list.
